Day Shift

Narrative

Jeffcoate is a 8 bedded low dependancy postnatal ward. Women stay on this ward if they are otherwise well and low risk but require some extra assistance. Women who have babies on NICU also stay on this ward. The recommended staffing levels are one registered midwife and one unregistered support staff per day/night. If the activity is low on MLU, staff are diverted to jeffcoate ward to assist with the care and discharge of women and their babies. Jeffcoate was closed between 9/11 - 11/11 for acuity.

Ward Manager's Assurance Statement

Acuity is assessed by the maternity 104 blepholder 4 hourly and the staff redeployed from other areas if help needed to maintain the flow of discharging patients and patient care. From the graphs above it appears there are a number of occasions when staffing was not at agreed levels, however this reflects the time when jeffcoate was closed due to staffing, acuity and no eligible patients suitable to be sent there.
