Narrative

The Midwifery led Unit (MLU) is a low risk birthing environment for women with no medical complications. There were 16 occasions where staffing appears below funded staffing, however there are significant periods of low activity on the MLU noted. There are additionally 8 periods where staffing was above the funded establishment and this is due to Jeffcoate ward not being open in March and the redeployment of staff. Staffing is reviewed 4 hourly by the 104 bleep holder and staff redeployed to support other areas within maternity in times of increased activity when required.

Ward Manager's Assurance Statement

Intrapartum areas remain unpredictable in nature in terms of activity. Sickness levels continue to be managed in accordance with policy and short term sickness has improved. Long term sickness has improved slightly, with the return of 2 members of staff. Ongoing staffing reviews continue to ensure MLU is compliant with BR plus recommended levels. Staff are redeployed in times of reduced activity to assist with other areas of maternity. In times of increased activity on MLU, staff escalate to the maternity 104 bleep holder as per policy.
