

Our Strategy 2021–2025

Our Strategy 2021–2025 outlines the Trust's plans for the next five years which focus on our people, the safety of our services and the experience of those who use our services.

Our vision is to be the recognised leader in healthcare for women, babies and their families and we want to be the provider that sets the standards that others follow.

We want to lead the way in shaping health and care services, working with our partners to improve economic, environmental and social wellbeing across Liverpool and beyond.

Our focus for the next five years

People

We will be an outstanding employer

Safety

Our services will be the safest in the country

Experience

Every patient will have an outstanding experience

Efficiency and Effectiveness

We will provide outcomes that are best in class whilst delivering maximum efficiency and effectiveness through financial sustainability, research and innovation, partnership working and maximum compliance to standards.
