- Click Complete Registration
- Complete form
- Select Liverpool Women's Hospital
- Complete data sharing consent (if you do not wish to share data please discuss this with your midwife. What your data is used for will be discussed with you).
- Click Submit

What can I do on My Pregnancy Notes?

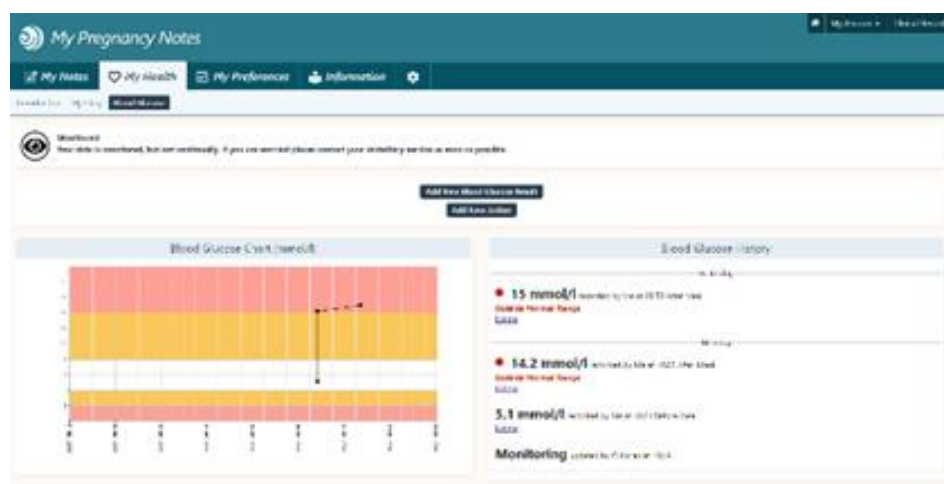

My Notes:

- Welcome page with advice on when to call your midwife courtesy of MAMA Academy.
- Add information to your notes including questions or maternity certificates.

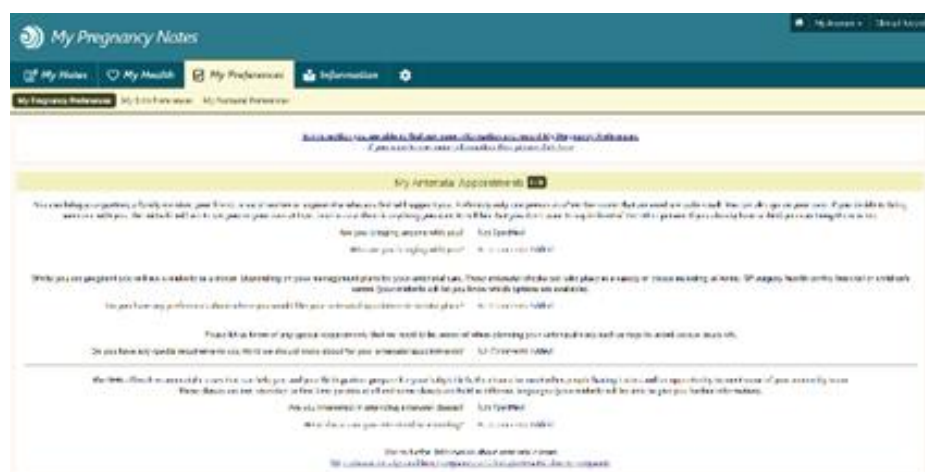

My Health:

- Record a private diary and
- Add observations if you have been asked to by your clinician.

My Preferences/information and Settings:

- Add in preferences for your pregnancy and birth.
- Access information leaflets and links.
- Take control of some of the things you see in your notes.

Why should I use My Pregnancy Notes?

We have been working very with hard other hospitals to produce a tool which you can use to access your notes wherever and whenever you wish and communicate better with your clinicians.

My Pregnancy Notes will allow you to be more involved in your care and provide your clinicians with more information than ever about you preferences. It will enable you access to up to date information about your care and the leaflets and information you need, whenever you need it.

Your clinician may also discuss the need to monitor a part of your care (Blood pressure, Temperature etc.). If this is the case, they will discuss this with you, and you will be able to enter these observations straight into your notes, which can be seen in real time by your clinician.

What if I need help?

If you need help, the first person to contact should always be your midwife or doctor giving your care. However below there are links to help guides to help you with the use of My Pregnancy Notes.
