EXECUTIVE SUMMARY

All NHS Foundation Trusts at authorisation are issued with a 'Provider Licence' that sets out conditions by which trusts should operate. A number of conditions also require trusts to make declarations that are prescriptive and are required to be declared within specific timescales. The following declarations are required each year under the specific conditions of the licence:

- 1 Systems for compliance with licence conditions – in accordance with **General Condition 6** of the NHS provider licence
- 2 Availability of resources and accompanying statement – in accordance with **Continuity of Services condition 7** of the NHS provider licence. This is required if the Trust has been specifically designated as providing commissioner requested services (CRS) and have been notified by their commissioner. A CRS designation is not simply a standard contract with the commissioners to provide services. CRS are services commissioners consider should continue to be provided locally even if a provider is at risk of failing financially. Providers can be designated as providing CRS because:
 - i. There is no alternative provider close enough
 - ii. Removing the services would increase health inequalities
 - iii. Removing the services would make other related services unviable.
- 3 Corporate governance statement – in accordance with **condition FT4** of the NHS provider licence

Declaration 1, 2 & 3 are set out in this report for the Board to consider for self-certification.

Regarding declaration 2; the Trust has not been designated by NHS Cheshire & Merseyside as providing "designated commissioner requested services". The Trust does hold CRS relating to those commissioned by NHS England Specialist Commissioned Services and therefore a declaration is required.

From 31 March 2023, NHS England implemented several changes to NHS Provider Licence and issued NHS Foundation Trusts and NHS Trusts (for the first time) with an updated licence. The changes can be grouped under:

- Supporting effective system working
- Enhancing the oversight of key services provided by the independent sector
- Addressing climate change
- Technical amendments

The report details these updates and highlights any further action required for the Trust to maintain compliance with its licence conditions during 2023/24.

Recommendation

The Board is asked to

- agree the suggested declarations and responses and to request that the Trust Secretary ensures the declarations are made in accordance with the paper and published on the Trust's website by 30 June 2023.
- Note the updates to the Trust's Provider Licence (in place since 1 April 2023) and the actions required to maintain a position of compliance.

General Condition 6

Declaration 1 states

Following a review for the purpose of paragraph 2(b) of licence condition G6, the Directors of the Licensee are satisfied, as the case may be that, in the Financial Year most recently ended 2021/22; the Licensee took all such precautions as were necessary in order to comply with:

- i. the conditions of the licence;

Response: **Confirmed**

Comment: The Trust has taken all precautions as necessary to comply with the conditions of the licence (see attached review of the provider licence). However, the Trust was placed in breach of its licence under section 106 of the Health and Social Care Act 2012 by NHS Improvement in April 2016 and was required to enter into an enforcement undertaking to take the necessary steps to address its long-term sustainability.

Following an investigation in November 2015, NHS Improvement acknowledged that the Trust had taken steps to address its financial challenges however they wished to determine what additional support they could offer the Trust as it seeks to reduce its financial deficit and ensure long term sustainability. On 8 April 2016 NHS Improvement took action, under the license for providers, and the Trust entered into an enforcement undertaking which requires specific actions to be taken in order that the Trust can return to a sustainable position.

In August 2021, a letter was received from Graham Urwin, at that time Regional Director of Performance at Improvement NHS England and NHS Improvement – North West stating that “there are no longer reasonable grounds to suspect that the Trust is in breach of licence.”

The Trust acknowledged the letter, noting that no further action or monitoring would take place in respect of the Enforcement Undertakings, and that further detail was awaited regarding the segmentation relating to the new System Operating Framework.

Since that point, and despite financial challenges, the Trust does not have any conditions placed on its Licence and has not entered into any formal undertakings with NHS England. The Trust was judged to be in segment 3 within the NHS system oversight framework during 2022/23 and therefore can access support to assist with the Trust’s improvement priorities.

In 2022/23 the CQC issued a warning notice in respect of Maternity Services. The Trust is tracking the delivery of all improvements required by the CQC. The delivery of each of the required actions is assured through the Quality Committee with enhanced operational support being provided through the Executive oversight at the respective Divisional Performance Review meetings.

- ii. any requirements imposed on it under the NHS Acts; and

Response: **Confirmed**

Comment: There have been no additional requirements imposed on the Trust under the NHS Acts during 2022/23

- iii. have had regard to the NHS Constitution in providing health care services for the purposes of the NHS

Response: **Confirmed**

Comment: The Trust continues to have regard to the provisions contained within the NHS Constitution through the formulation and adoption of trust policies and procedures. The NHS constitution is in line with the Trust's overall vision, aims and values. The Trust governance structure reflects the needs of the NHS constitution and the rights of patients, service users and staff.

Declaration 2 states:

Without prejudice to the generality of paragraph 1, the steps that the Licensee must take pursuant to that paragraph shall include:

(a) the establishment and implementation of processes and systems to identify risks and guard against their occurrence; and

(b) regular review of whether those processes and systems have been implemented and of their effectiveness.

Response: Confirmed - The Trust has a Risk Management Strategy that provides a framework for managing risk across the Trust in line with best practice and Dept. of Health and Social Care Guidelines.

The Board Assurance Framework provides assurance regarding the delivery of the Trust's strategic objectives. Real-time assessment of the risks and mitigation at all levels within the Trust and reviewed within the Integrated Governance Structure.

Independent Assurance is provided as and when required by the Trust's internal and External auditor.

Overall response:

the Board of Directors on behalf of the Licensee is satisfied, as the case may be that, in the Financial Year most recently ended 2022/23, the Licensee took all such precautions as were necessary in order to comply with the conditions of the licence, any requirements imposed on it under the NHS Acts and have had regard to the NHS Constitution

Continuity of Services Condition 7 – Availability of resources

The Board needs to be satisfied that as:

- Licensee it shall always act in a manner calculated to secure that it has, or has access to, the Required Resources.
- Licensee it shall not enter into any agreement or undertake any activity which creates a material risk that the Required Resources will not be available to the Licensee.
- Licensee, not later than two months from the end of each Financial Year, it shall submit to NHS Improvement a certificate as to the availability of the Required Resources for the period of 12 months commencing on the date of the certificate, in one of the following forms:

Either:

- (a) "After making enquiries the Directors of the Licensee have a reasonable expectation that the Licensee will have the Required Resources available to it after taking account distributions which might reasonably be expected to be declared or paid for the period of 12 months referred to in this certificate."

or:

- (b) "After making enquiries the Directors of the Licensee have a reasonable expectation, subject to what is explained below, that the Licensee will have the Required Resources available to

it after taking into account in particular (but without limitation) any distribution which might reasonably be expected to be declared or paid for the period of 12 months referred to in this certificate. However, they would like to draw attention to the following factors which may cast doubt on the ability of the Licensee to provide Commissioner Requested Services”.

or:

- (c) “In the opinion of the Directors of the Licensee, the Licensee will not have the Required Resources available to it for the period of 12 months referred to in this certificate”.

In considering the above declarations the Board should be consider whether it has the management, financial, facilities, staff and physical and other assets to meet the needs of CRS.

The Trust have further considered the going concern status in light of the Trust’s deficit position in 2022/23, the cash support being received, the deficit financial plan for 2023/24, the underlying deficit for the Trust and the long-term financial model. The Trust will continue to work with the ICS and NHSE to explore long term sustainable options for the Trust and the patients its serves. Meanwhile the Trust has confidence that adequate funding and cash support will be forthcoming to deliver services for the short to medium term and a going concern basis is adopted.

The Trust's expectation is that services will continue to be provided from the existing hospital sites in the short term.

In addition to the matters referred to above, the Trust has not been informed by NHSE that there is any prospect of its dissolution within the next twelve months, and it anticipates the continuation of the provision of services in the foreseeable future as evidenced by the inclusion of financial provision for those services in published documents and contracts for services with commissioners.

Continuity of Service 7 Recommendation:

It is proposed that the Board for the current financial year 2023/24 confirm that:

“After making enquiries the Directors of the Licensee have a reasonable expectation, subject to what is explained below, that the Licensee will have the Required Resources available to it after taking into account in particular (but without limitation) any distribution which might reasonably be expected to be declared or paid for the period of 12 months referred to in this certificate. However, they would like to draw attention to the following factors which may cast doubt on the ability of the Licensee to provide Commissioner Requested Services. “

“The Trust expects to deliver a financial deficit position in 2023/24 per draft plans to be agreed with the NHS Cheshire and Merseyside Integrated Care System. However, the Trust expects to have the resources to deliver services for the following 12 months. Given the scale of the deficit plan, cash support will be required during 2023/24. The financial regime is in place to allow NHS organisations to access revenue support in the form of Public Dividend Capital (PDC) if required. Discussions have been had with the national team to confirm this is available to the Trust. The Trust is actively working with the ICB to identify system solutions and avoid reliance on PDC”.

FT4 – Corporate Governance Statement

NHSI revised its governance reporting requirements for trusts in 2013/14. In order to comply with both the provider licence and the Risk Assessment of their licence, the Trust is required to provide a “forward looking governance statement” in the form of a Corporate Governance Statement (CGS) to NHS Improvement.

The statement, which is required to be declared by 30 June 2023, will confirm compliance with the licence condition FT4 and provide any risks to compliance with this condition during the next year and any mitigating actions it proposes to take to manage such risks.

Licence Condition FT4 - sets out the criteria that the Trust has to assess itself against when completing the Corporate Governance Statement.

In addition, the Trust was required to describe the ways in which it was able to assure itself of the validity of its Corporate Governance Statement in its Annual Governance Statement (AGS). The AGS has been submitted with the Trust Annual Report and Accounts 2022/23 as part of the year end reporting timetable.

The CGS replaces the board statements that NHS Foundation Trusts were previously required to submit with their annual plans under the FT Compliance Framework.

Additional compliance statements are also required relating to Joint Ventures and Governor Training.

The requirements of the self-declaration stipulate that it must have ‘had regard to the views of governors’ with regards to whether adequate training was provided to them during the year. This was raised and discussed with the Council of Governors at their meeting on 18 May 2023 and they agreed with the view that the Trust was compliant with this aspects of the licence conditions.

Once the declarations have been agreed by the Board, the declarations will be signed on the Board’s behalf by the Chairman and Chief Executive and published on the Trust website.

UPDATED LICENCE CONDITIONS

From 31 March 2023, NHS England implemented several changes to NHS Provider Licence and issued NHS Foundation Trusts and NHS Trusts (for the first time) with an updated licence. The changes can be grouped under:

- Supporting effective system working
- Enhancing the oversight of key services provided by the independent sector
- Addressing climate change
- Technical amendments

Supporting effective system working

- New condition for providers to work together across the newly formed integrated care systems to deliver on core system objectives.
This includes planning, service improvement and delivery, delivery of system financial objectives and system workforce plans.
- New condition for providers to consider the triple aim and health inequalities in their work.
NB. Triple aim = improving the individual experience of care, improving the health of populations and reducing the per capita costs of care for populations
- New condition on digital obligations to enable system working and promote digital maturity.

- Amendment to integrated care condition to encourage providers to actively participate in service integration.
- Expanding the patient choice condition to reflect the importance of personalised care.
- Removal of the competition condition to reflect a shift in healthcare priorities from competition to collaboration.

Enhancing the oversight of key services provided by the independent sector

- Broadening the range of providers where continuity of services conditions will apply. The proposal is to expand NHSE's oversight beyond the narrow definition of commissioner requested services, to providers which deliver services that are considered hard to replace.
- Expanding the scope of continuity of services conditions to include quality governance standards. Aim to enhance risk mitigation and cooperation with NHSE in the event that an independent sector provider is experiencing serious quality issues which threaten service delivery.

Addressing climate change

- A requirement for NHS trusts and foundation trusts to tackle climate change and contribute to the delivery of net zero carbon emissions.
- Adherence to any NHSE guidance on tackling climate change needs to be part of good corporate governance, requiring boards to nominate a board-level net zero lead and deliver a green plan.

Technical amendments

- Shifting the focus of the costing conditions.
- Amending the pricing conditions to reflect changes to national policy.
- Streamlining reporting requirements (i.e. Board declaration no longer required for 2023/24)
- Applying conditions to NHS trusts and updating language to reflect the current statutory framework.
- Removing obsolete conditions.
- Amending the Fit and Proper Persons condition.

In the Appendix below – these changes are shown with comments made with any further action required of the Trust to maintain compliance during 2023/24.

RECOMMENDATION

The Board is asked to

- agree the suggested declarations and responses and to request that the Trust Secretary ensures the declarations are made in accordance with the paper and published on the Trust's website by 30 June 2023.
- Note the updates to the Trust's Provider Licence (in place since 1 April 2023) and the actions required to maintain a position of compliance.

Liverpool Women's NHS Foundation Trust

Provider Licence

This paper provides assurance that the Trust complies with the terms of its Licence and sets out a broad outline of the licence conditions and any issues for Board to note.

The 2022/23 provider licence is split into six sections, which apply to different types of providers.

1. General conditions (G) – general requirements applying to all licensed providers.
2. Obligations about pricing (F) – obliges providers to record pricing information, check data for accuracy and, where required, charge commissioners in line with tariff. Applies to all licensed providers who provide services covered by national tariff.
3. Obligations around choice and competition (C) – obliges providers to help patients make the right choice of provider, where appropriate, and prohibits anti-competitive behaviour where against patients' interests. This applies to all licensed providers.
4. Obligations to enable integrated care (IC) – enables the provision of integrated services and applies to all licensed providers.
5. Conditions to support continuity of service (CoS) – allows NHS Improvement to assess whether there is a risk to services and to set out how services will be protected if a provider gets into financial difficulty. Applies to providers of commissioner requested services (CRS) only.
6. Governance licence conditions for Foundation Trusts (FT) – provides obligations for Foundation Trusts around appropriate standards of governance. Applies to Foundation Trusts only.

The Licence from 1 April 2023 includes the following sections:

1. Integrated Care
2. Trusts working in systems
3. General Conditions
4. Trust Conditions
5. NHS Controlled Providers Conditions
6. Continuity of Services
7. Costing Conditions
8. Pricing Conditions

The following table attempts to map the updated conditions and notes any further action required to maintain compliance for 2023/24.

Condition	Provision	Comments
Integrated Care		
1. Provision of Integrated care	Obligation for trusts to ensure that its services are integrated with other health and social care providers and that there is co-operation with these providers.	This is an existing condition – see the integrated care section below.
2. Personalised Care and Patient Choice	The Licensee shall support the implementation and delivery of personalised care by complying with legislation and having due regard to guidance on personalised care.	This is an existing condition – see the choice and competition section below.
Trusts Working in Systems		
1. Co-Operation	The Licensee shall carry out its legal duties to co-operate with NHS bodies and with local authorities.	No further action is necessary – integration and partnerships and fundamental to the operation of the Trust and can be well evidenced (see Annual Governance Statement)
2. The Triple Aim	When making decisions in the exercise of its functions which relate to the provision of health care for the purposes of the NHS, the Licensee shall comply with its duty relating to the triple aim	The Trust has made progress with its work to reduce health inequalities and this will progress during 2023/24 (overseen by the Board and its Committees). Board and Committee templates to be amended to include explicit references to how decision making and assurances link with the triple aim.
3. Digital Transformation	The Licensee shall comply with required levels of digital maturity as set out in guidance published by NHS England from time to time where they pertain to one or more of the requirements set out in the cooperation condition (WS1) and the Triple Aim condition (WS2)	The Trust has made and is expected to make further progress during 2023/24 in relation to its digital maturity. This is overseen by the FPBD Committee and the Board.
General licence conditions (G)		
1. Provision of information	Obligation to provide NHS Improvement with any information it requires for its licensing functions.	The Trust is currently obliged to provide NHS England with any information it requires and, within reasonable parameters, to publish any information NHS England requires it to. We have systems in place to identify and respond to routine and ad-hoc requests. Formal articulation of this Condition, therefore, does not present any issues for the Trust.
2. Publication of information	Obligation to publish such information as NHS Improvement may require.	

Condition	Provision	Comments
3. Payment of fees to NHS Improvement	Gives NHS Improvement the ability to charge fees and for licence holders to pay them.	<p>There are currently no plans to charge a fee to Licence holders. Trust Board should note that there is, currently, no provision in the budget should such a requirement become payable.</p> <p><i>Removed for 2023/24</i></p>
4. Fit and proper persons	Prevents licensees from allowing unfit persons to become or continue as governors or directors (also applicable to those performing the functions of, or functions equivalent or similar to the functions of, a director)	<p>The Care Quality Commission (CQC) published the fit and proper person requirements to take effect from 1 October 2014. The Trust has included the requirement for members of Trust Board to make a declaration against the requirements on an annual basis and has robust arrangements in place for new appointments to the Board (whether non-executive or executive).</p> <p>For 2023/24, the Trust has now extended the requirement to make a FPP declaration to Governors and for two years, deputies of voting Executive Board members have also been required to make a declaration.</p>
5. NHS England guidance	Requires licensees to have regard to NHS England guidance.	The Trust responds to guidance issued by NHS England. Each Executive has a responsibility to review guidance relating to their areas of responsibility and bring any matter to the attention of the other Executive and Board (and to Board Committees).
6. Systems for compliance with licence conditions and related obligations	Requires providers to take reasonable precautions against risk of failure to comply with the licence.	<p>Reviews of the provider licence are undertaken to take into account its conditions within the Board Assurance Framework and risk processes – failure to comply with the licence is reported to the Board and includes interpretation by NHSI to the Trust's compliance – see enforcement undertaking April 2016.</p> <p>The Trust has a Risk Management Strategy that provides a framework for managing risk across the Trust in line with best practice and Dept. of Health and Social Care Guidelines.</p> <p>The Board Assurance Framework provides assurance regarding the delivery of the Trust's strategic objectives. Real time assessment of the risks and mitigation at all levels within the Trust and reviewed within the Integrated Governance Structure.</p> <p>Independent assurance is provided as and when required by the Trust's internal and</p>

Condition	Provision	Comments
		External auditor.
7. Registration with the Care Quality Commission (CQC)	Requires providers to be registered with the CQC and to notify NHS England if their registration is cancelled.	The Trust is registered with the Care Quality Commission (CQC).
8. Patient eligibility and selection criteria	Requires licence holders to set transparent eligibility and selection criteria for patients and apply these in a transparent manner.	The Trust's website sets out the service directories for each service. The Trust has an access policy that complies with NHSE guidance and best practice. This is made available to the public on the Trust website.
9. Application of section 5 (which relates to continuity of services)	Sets out the conditions under which a service will be designated as a Commissioner Requested Service	Covers all services which the licensee has contracted with a Commissioner to provide as Commission Requested Services (CRS).
Trust Conditions		
Information to update the register		Existing conditions – see foundation trust condition section below
Governance arrangements		
NHS Controlled Providers Conditions		
Governance arrangements for NHS-controlled providers	The Licensee shall apply those principles, systems and standards of good corporate governance which reasonably would be regarded as appropriate for a provider of health care services to the NHS	This repeats some elements of General Condition 6 (above). Also includes requirements around climate change (Trust has a green plan in place) and digital maturity (see above) – no further action is required.
Pricing conditions (P)		
Submission of costing information		Compliance as below (wording changed in provisions only)
Provision of costing and costing related information		
Assuring the accuracy of pricing and costing information		
1. Recording of information	Obligation of licensees to record information, particularly about costs.	The Trust responds to guidance and requests from NHS England. Information provided is approved through the relevant and appropriate authorisation processes. The Trust has established financial systems, independently audited which provide service cost information.
2. Provision of information	Obligation to submit the above to NHS England.	
3. Assurance report on submissions to NHS Improvement	Obliges licensees to submit an assurance report confirming that the information provided is	

Condition	Provision	Comments
	accurate.	
4. Compliance with the national tariff	Obliges licensees to charge for NHS health care services in line with national tariff.	The Trust codes and records activity in line with national rules and makes submissions to the Secondary User Service (SUS). This will form part of the Trust's payment (through the Elective Recovery Fund). The Trust is also engaging with the Aligned Payment and Incentive approach proposed by NHSE.
5. Constructive engagement concerning local tariff modifications	Requires licence holders to engage constructively with commissioner and to reach agreement locally before applying to NHS England for a modification.	
Pricing Conditions		
Compliance with the NHS payment scheme	Except as approved in writing by NHS England, the Licensee shall comply with the rules, and apply the methods, concerning charging for the provision of health care services for the purposes of the NHS contained in the NHS Payment Scheme published by NHS England in accordance with section 116 of the 2012 Act, wherever applicable	The Trust would comply with this requirement
Choice and competition (C)		
1. Patient choice	Protects patients' rights to choose between providers by obliging providers to make information available and act in a fair way where patients have a choice of provider.	The Trust has in place a service directory setting out the services available. Commissioners monitor the Trust's compliance with the legal right of choice as part of contract monitoring in line with NHS Standard Contract requirements.
2. Competition oversight	Prevents providers from entering into or maintaining agreements that have the effect of preventing, restricting or distorting competition to the extent that it is against the interests of health care users.	The Trust Board considers that it has no arrangements in place that could be perceived as having the effect of preventing, restricting or distorting competition in the provision of health services. The Trust is aware of the requirements of competition in the health sector and would seek legal and/or specialist advice should Trust Board decide to consider any structural changes, such mergers or joint ventures.
Integrated care condition (IC)		
1. Provision of integrated care	Requires Licensee to act in the interests of people who use healthcare services by facilitating the development and maintenance of integrated services.	Integration and partnerships are fundamental to the operation of the Trust and can be well evidenced (see Annual Governance Statement).

Condition	Provision	Comments
Continuity of service (CoS)		
1. Continuing provision of commissioner requested services (CRS)	Prevents licensees from ceasing to provide CRS or from changing the way in which they provide CRS without the agreement of relevant commissioners.	The Trust does have designated Commissioner requested Services with NHS England. Amendment to Service Specifications would be in accordance with commissioner agreement prior to variation of the contract.
2. Restriction on the disposal of assets	Licensees must keep an up-to-date register of relevant assets used in commissioner requested services (CRS) and to seek NHS Improvement's consent before disposing of these assets IF NHS Improvement has concerns about the licensee continuing as a going concern.	<p>The Trust has an asset register in place.</p> <p>The Trust would require NHSE Consent to the disposal of any relevant assets</p> <p>The Trust would not dispose of an asset that would impact on its ability to provide 'Commissioner Requested Services'</p>
3. NHS England risk rating (standards of corporate governance and financial management)	Licensees are required to adopt and apply systems and standards of corporate governance and management, which would be seen as appropriate for a provider of NHS services and enable the Trust to continue as a going concern.	<p>The Trust has robust and comprehensive corporate and financial governance arrangements in place with 'high' assurance received from an internal audit in 2022/23. The Trust complies wherever possible with Corporate Governance good practice including the Code of Governance and follows guidance issued by NHSE.</p> <p>The Trust maintains good financial governance processes such that it can continue as a going concern, the directors have a reasonable expectation that the Trust has adequate resources to continue in operational existence for the foreseeable future. The Board receives assurance on the good financial governance from MIAA through their internal audit reports.</p>
4. Undertaking from the ultimate controller	Requires licensees to put a legally enforceable agreement in place to stop the ultimate controller from taking action that would cause the licensee to breach its licensing conditions.	Does not apply to the Trust.
5. Risk pool levy	Obliges licensees to contribute to the funding of the 'risk pool' (insurance mechanism to pay for vital services if a provider fails).	This condition has not been enacted by NHS England. If it was, this would create a significant cost pressure on the Trust.

Condition	Provision	Comments
6. Co-operation in the event of financial stress	Applies when NHS Improvement has given notice in writing to the Licensee that it is concerned about the ability of the Licensee to carry on as a going concern and in such circumstances obliges the licensee to co-operate with NHS Improvement.	The Trust is aware it needs to co-operate with NHS Improvement in such circumstances.
7. Availability of resources	Requires licenses to act in a way that secures resources to operate commissioner requested services (CRS).	<p>The Trust has sound and robust processes and systems in place to ensure it has the resources necessary to deliver its services. Trust undertakes robust contract discussions and undertakes early identification of CIP schemes supported by PID, QIA and EIA.</p> <p>Whilst the Trust has planned a deficit position for 2023/24 it expects to have the resources to deliver services for the following 12 months, following planning with the Integrated Care System.</p>
Foundation Trust conditions (FT)		
1. Information to update the register of NHS foundation trusts	Obliges foundation trusts to provide information to NHS England.	See G1. The Trust is currently obliged to provide NHS England with any information it requires, including information to update its entry on the register of NHS foundation trusts.
2. Payment to NHS England in respect of registration and related costs	The Trust would be required to pay any fees set by NHS England.	NHS England has undertaken not to levy any registration fees on foundation trusts without further consultation.
3. Provision of information to advisory panel	NHS England has established an independent advisory panel to consider questions brought by governors. Foundation trusts are obliged to provide information requested by the panel.	The Independent Advisory Panel was disbanded in January 2017.
4. NHS Foundation Trust governance arrangements	Gives NHS England continued oversight of the governance of foundation trusts.	The Trust has sound corporate governance processes in place and reviews of these arrangements are a core part of the internal audit annual work program.

Declarations required by General condition 6 and Continuity of Service condition 7 of the NHS provider licence

The board are required to respond "Confirmed" or "Not confirmed" to the following statements (please select 'not confirmed' if confirming another option). Explanatory information should be provided where required.

1 & 2 General condition 6 - Systems for compliance with licence conditions (FTs and NHS trusts)

1 Following a review for the purpose of paragraph 2(b) of licence condition G6, the Directors of the Licensee are satisfied that, in the Financial Year most recently ended, the Licensee took all such precautions as were necessary in order to comply with the conditions of the licence, any requirements imposed on it under the NHS Acts and have had regard to the NHS Constitution. Confirmed OK

3 Continuity of services condition 7 - Availability of Resources (FTs designated CRS only)

EITHER:

3a After making enquiries the Directors of the Licensee have a reasonable expectation that the Licensee will have the Required Resources available to it after taking account distributions which might reasonably be expected to be declared or paid for the period of 12 months referred to in this certificate.

OR

3b After making enquiries the Directors of the Licensee have a reasonable expectation, subject to what is explained below, that the Licensee will have the Required Resources available to it after taking into account in particular (but without limitation) any distribution which might reasonably be expected to be declared or paid for the period of 12 months referred to in this certificate. However, they would like to draw attention to the following factors (as described in the text box below) which may cast doubt on the ability of the Licensee to provide Commissioner Requested Services. Confirmed

OR

3c In the opinion of the Directors of the Licensee, the Licensee will not have the Required Resources available to it for the period of 12 months referred to in this certificate. Please Respond

Statement of main factors taken into account in making the above declaration

In making the above declaration, the main factors which have been taken into account by the Board of Directors are as follows:

The Trust expects to deliver a financial deficit position in 2023/24 per draft plans to be agreed with the NHS Cheshire and Merseyside Integrated Care System. However, the Trust expects to have the resources to deliver services for the following 12 months. Given the scale of the deficit plan, cash support will be required during 2023/24. The financial regime is in place to allow NHS organisations to access revenue support in the form of Public Dividend Capital (PDC) if required. Discussions have been had with the national team to confirm this is available to the Trust. The Trust is actively working with the ICB to identify system solutions and avoid reliance on PDC

Signed on behalf of the board of directors, and, in the case of Foundation Trusts, having regard to the views of the governors

Corporate Governance Statement (CGS)

	Corporate Governance Statement A	Current arrangements B	Response C	Risks and mitigating actions D
1	The Board is satisfied that the Trust applies those principles, systems and standards of good corporate governance which reasonably would be regarded as appropriate for a supplier of health care services to the NHS.	<ul style="list-style-type: none"> • Review of NHSI Code of Governance – No ‘explain’ areas identified • Membership of NHS Providers and the Company Secretary networks • Reviews of NHSE and other bulletins by the Board and regular updates from the external auditors through the audit committee. • The Trust has an internal audit programme and assurance cycle. • External auditors provide assurance on the content of the Trust Annual Report and Accounts, the Quality Report and provide an opinion on Trust annual governance statement. 	Confirmed	Latest (2023) CQC Review – ‘Well-led’ identified as ‘Requires Improvement’ - The Trust will be reviewing the necessary actions and will identify the key drivers that will support improvement from this position.
2	The Board has regard to such guidance on good corporate governance as may be issued by NHS Improvement from time to time	<ul style="list-style-type: none"> • Trust Secretary in post, identification of any changes in guidance. • Receipt and review of regular updates from NHS England • Membership of NW FT Company Secretary network and NHS Providers Company Secretary Network. • Regular communications from legal advisors and internal and external auditors. 	Confirmed	
3	The Board is satisfied that the Trust implements: (a) Effective board and committee structures; (b) Clear responsibilities for its Board, for committees reporting to the Board and for staff reporting to the Board and those committees; and	<ul style="list-style-type: none"> • Review of Board and Committee structure undertaken. Constant review of performance of Board and committee’s undertaken and annual report from each committee is presented to the Board for noting. 	Confirmed	Further work required to enhance the Trust’s divisional governance structures to ensure consistency of reporting and assurances through

	Corporate Governance Statement A	Current arrangements B	Response C	Risks and mitigating actions D
	(c) Clear reporting lines and accountabilities throughout its organisation.	<ul style="list-style-type: none"> Annual Governance statement provides the Board with assurance surrounding the responsibilities of the Board and its committees. Board approved terms of reference of Board Committees providing details of reporting lines, responsibilities, and membership. Board approved a Board Terms of Reference in May 2020 (reaffirmed in April 2023). Clear reporting lines within the Board, Executive and Divisions provided through the Trust's operational and corporate governance framework and Workforce strategies developed in line with Trust's vision, aims and values. The Trust's divisional structure, implemented from 1 April 2019, has shown signs of continued embedding although this requires further strengthening. 		the Board's governance and performance frameworks.
4	<p>The Board is satisfied that the Trust effectively implements systems and/or processes:</p> <p>(a) To ensure compliance with the Licensee's duty to operate efficiently, economically and effectively;</p> <p>(b) For timely and effective scrutiny and oversight by the Board of the Licensee's operations;</p>	<p>a) Strong systems of financial and quality governance in place. All statutory audits and reporting requirements fulfilled via Audit Committee and or the Finance Performance and Business Development Committee.</p> <p>b) Performance review, service reporting arrangements, service review, performance dashboards at all levels within the organisation with systems for appropriate escalation and review to ensure timely and effective scrutiny and oversight of all operations.</p>	Confirmed	The Trust expects to deliver a financial deficit position in 2023/24 per draft plans to be agreed with the NHS Cheshire and Merseyside Integrated Care System. However, the Trust expects to have the resources to deliver services for the following 12 months.

	Corporate Governance Statement A	Current arrangements B	Response C	Risks and mitigating actions D
	<p>(c) To ensure compliance with health care standards binding on the Licensee including but not restricted to standards specified by the Secretary of State, the Care Quality Commission, the NHS Commissioning Board and statutory regulators of health care professions;</p> <p>(d) For effective financial decision-making, management and control (including but not restricted to appropriate systems and/or processes to ensure the Licensee's ability to continue as a going concern);</p> <p>(e) To obtain and disseminate accurate, comprehensive, timely and up to date information for Board and Committee decision-making;</p> <p>(f) To identify and manage (including but not restricted to manage through forward plans) material risks to compliance with the Conditions of its Licence;</p>	<p>c) Effective systems and processes in place to ensure with national and local healthcare standards - internal and external assurance systems are in place and reported through the Trust's integrated governance framework.</p> <p>d) Financial plans agreed by the Board and discussed with Governors. Cost Improvement programme agreed with services and corporate departments and quality impact assessed. Contracts and business development managed appropriately. Workforce strategies developed to meet service demands, and workforce plans reviewed to minimise the use of agency/temporary staff. Robust procurement scrutiny to minimise costs and number of tender waivers. Annual and rigorous review of the Trust as a Going Concern overseen by Audit Committee and reported to Board.</p> <p>e) Robust integrated governance structure in place. Board and committee structures fully serviced. Accurate, comprehensive, timely, up-to-date information available for Board and Board committees.</p> <p>f) Financial and operational risks identified in planning process and reported through the Board Assurance Framework/Corporate Risk Register. Oversight of the risks is provided through the integrated governance framework/structure and the BAF and reported to the</p>		<p>Given the scale of the deficit plan, cash support will be required during 2023/24. 	<p>(g) To generate and monitor delivery of business plans (including any changes to such plans) and to receive internal and where appropriate external assurance on such plans and their delivery; and</p> <p>(h) To ensure compliance with all applicable legal requirements.</p>	<p>Board. GC6 and CoS7 approved by Board as “in compliance” with the licence.</p> <p>g) Effective strategic and business planning arrangements in place embedded within the Trust and reviewed with Governors, ICB and NHSE.</p> <p>h) Applicable legal requirements, against principal objectives and activities of the organisation reviewed and managed appropriately as part of the Trust's governance arrangements. Each Executive areas of responsibility require that they take account of any changes to legal requirements.</p>		
5	<p>The Board is satisfied that the systems and/or processes referred to in paragraph 4 (above) should include but not be restricted to systems and/or processes to ensure:</p> <p>(a) That there is sufficient capability at Board level to provide effective organisational leadership on the quality of care provided;</p> <p>(b) That the Board’s planning and decision-making processes take timely and appropriate account of quality of care considerations;</p>	<p>a) Board capability reviewed against strategic direction and business plans. Focus on quality of care. Robust appraisal arrangements in place across the Trust. Medical Revalidation and appraisal systems in place and Leadership Management Development implemented across the Trust.</p> <p>b) Quality of care fully integrated within all planning and decision-making processes. QIAs implemented as part of business cases.</p>	Confirmed	

	Corporate Governance Statement A	Current arrangements B	Response C	Risks and mitigating actions D
	<p>(c) The collection of accurate, comprehensive, timely and up to date information on quality of care;</p> <p>(d) That the Board receives and takes into account accurate, comprehensive, timely and up to date information on quality of care;</p> <p>(e) That the Trust, including its Board, actively engages on quality of care with patients, staff and other relevant stakeholders and takes into account as appropriate views and information from these sources; and</p>	<p>c) (and d) Performance, integrated governance reports, patient experience and quality of care initiatives routinely provided to Board Committees and reported to the Board by exception. Board receives overarching Performance (operations, workforce and finance) reports.</p> <p>d) Board receives a Patient/ Staff Story at each Board meeting unless one is not available and receives presentations on quality of Care at both Board and Board committees and where necessary at Board development workshops. Quality is prominent within each Board and Board Committee agenda (it is always the first section on the Board agenda).</p> <p>e) Board and Board Committees receive Patient Stories and presentations from staff on quality of care provided by the trust. Executive and NED ward and department visits have continued to be undertaken to assess staff and patient care. Friends and Family Test systems in place and reported through the Governance Structure. Clinical & Quality Strategy and Patient Experience Strategy in place and reviewed by QC and Board. The Board through QC receives reports on complaints (integrated governance report). There is active engagement between the Board and the Council of Governors (CoG) - Board members invited to attend all CoG meetings and Council Group meetings.</p>		

	Corporate Governance Statement A	Current arrangements B	Response C	Risks and mitigating actions D
	(f) That there is clear accountability for quality of care throughout the Trust including but not restricted to systems and/or processes for escalating and resolving quality issues including escalating them to the Board where appropriate.	f) Escalation of reporting embedded in the Trust. Systems in place to allow for escalation to the Board as required through the integrated operational and corporate governance structures.		
6	The Board is satisfied that there are systems to ensure that the Trust has in place personnel on the Board, reporting to the Board and within the rest of the organisation who are sufficient in number and appropriately qualified to ensure compliance with the conditions of its NHS provider licence.	<p>Constitution sets out required numbers and qualifications for Board members.</p> <ul style="list-style-type: none"> • Reviews undertaken by the Board and Governors Nominations Committee at time of recruitment of Executive and Non-Executive directors on the board mix, need and experience • The NEDs provide challenge and scrutiny through attendance at Board and Board Committees regarding appropriate staffing levels. Assurance recently provided on 'single points of failure'. • Through use of board assurance framework and Risk Management Strategy at Board, Board Committees and Sub Committees and Groups within the Trust Governance Structure • The financial and operational plan includes details on transformation and HR requirements including mitigation of risks associated with future workforce requirements. 	Confirmed

6	Training of Governors			

	<p>The Board is satisfied that during the financial year most recently ended the Trust has provided the necessary training to its Governors, as required in s151(5) of the Health and Social Care Act, to ensure they are equipped with the skills and knowledge they need to undertake their role.</p>	<p>Governors receive induction training and will have, as part of the induction, one to one sessions with the Trust Secretary and Chair at appointment. External training is provided where appropriate. Internal training is also provided at and during Council, Council sub-group meetings and workshops to deal with specific areas of their roles and responsibilities. The Trust Secretary is available to respond to any matters that Governors may require clarification and if appropriate ad hoc training is provided should this be necessary. The Council committee structure provides additional briefings on matters relating to quality and patient experience, finance and performance measures and any additional requirements.</p> <p>A new initiative put into place during 2021/22 has been the sharing of governors training and briefing opportunities with partner NHS organisations in the Liverpool City region. This has been in recognition that governors across the city are often dealing with the same issues, and this has only increased as the NHS continues to move towards more collaborative ways of working under the developing Integrated Care System model. This is something that will continue to grow into 2023/24 and beyond.</p>	<p>Confirmed</p>	

Corporate Governance Statement (FTs and NHS trusts)

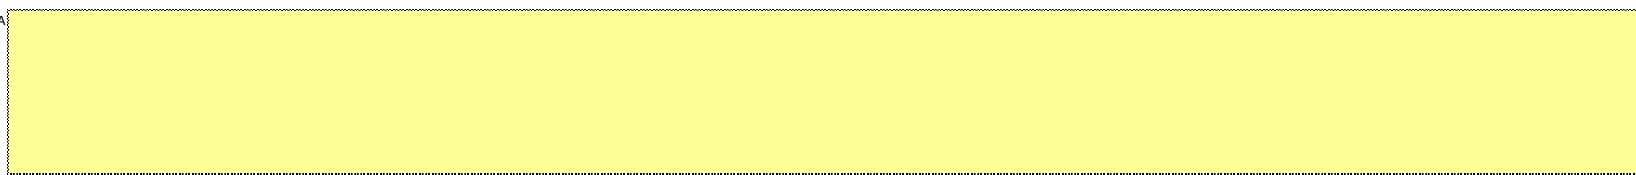

The Board are required to respond "Confirmed" or "Not confirmed" to the following statements, setting out any risks and mitigating actions planned for each one

Corporate Governance Statement	Response	Risks and Mitigating actions
1 The Board is satisfied that the Licensee applies those principles, systems and standards of good corporate governance which reasonably would be regarded as appropriate for a supplier of health care services to the NHS.	Confirmed	Latest (2023) COC Review – 'Well-led' identified as 'Requires Improvement' - The Trust will be reviewing the necessary actions and will identify the key drivers that will support improvement from this position.
2 The Board has regard to such guidance on good corporate governance as may be issued by NHS Improvement from time to time	Confirmed	
3 The Board is satisfied that the Licensee has established and implements: (a) Effective board and committee structures; (b) Clear responsibilities for its Board, for committees reporting to the Board and for staff reporting to the Board and those committees; and (c) Clear reporting lines and accountabilities throughout its organisation.	Confirmed	Further work required to enhance the Trust's divisional governance structures to ensure consistency of reporting and assurances through the Board's governance and performance frameworks.
4 The Board is satisfied that the Licensee has established and effectively implements systems and/or processes: (a) To ensure compliance with the Licensee's duty to operate efficiently, economically and effectively; (b) For timely and effective scrutiny and oversight by the Board of the Licensee's operations; (c) To ensure compliance with health care standards binding on the Licensee including but not restricted to standards specified by the Secretary of State, the Care Quality Commission, the NHS Commissioning Board and statutory regulators of health care professions; (d) For effective financial decision-making, management and control (including but not restricted to appropriate systems and/or processes to ensure the Licensee's ability to continue as a going concern); (e) To obtain and disseminate accurate, comprehensive, timely and up to date information for Board and Committee decision-making; (f) To identify and manage (including but not restricted to manage through forward plans) material risks to compliance with the Conditions of its Licence; (g) To generate and monitor delivery of business plans (including any changes to such plans) and to receive internal and where appropriate external assurance on such plans and their delivery; and (h) To ensure compliance with all applicable legal requirements.	Confirmed	The Trust expects to deliver a financial deficit position in 2023/24 per draft plans to be agreed with the NHS Cheshire and Merseyside Integrated Care System. However, the Trust expects to have the resources to deliver services for the following 12 months. Given the scale of the deficit plan, cash support will be required during 2023/24. The financial regime is in place to allow NHS organisations to access revenue support in the form of Public Dividend Capital (PDC) if required. Discussions have been had with the national team to confirm this is available to the Trust. The Trust is actively working with the ICB to identify system solutions and avoid reliance on PDC
5 The Board is satisfied that the systems and/or processes referred to in paragraph 4 (above) should include but not be restricted to systems and/or processes to ensure: (a) That there is sufficient capability at Board level to provide effective organisational leadership on the quality of care provided; (b) That the Board's planning and decision-making processes take timely and appropriate account of quality of care considerations; (c) The collection of accurate, comprehensive, timely and up to date information on quality of care; (d) That the Board receives and takes into account accurate, comprehensive, timely and up to date information on quality of care; (e) That the Licensee, including its Board, actively engages on quality of care with patients, staff and other relevant stakeholders and takes into account as appropriate views and information from these sources; and (f) That there is clear accountability for quality of care throughout the Licensee including but not restricted to systems and/or processes for escalating and resolving quality issues including escalating them to the Board where appropriate.	Confirmed	
6 The Board is satisfied that there are systems to ensure that the Licensee has in place personnel on the Board, reporting to the Board and within the rest of the organisation who are sufficient in number and appropriately qualified to ensure compliance with the conditions of its NHS provider licence.	Confirmed
